

Gonzalo Oviedo Lambert *Software Engineer — Java, Spring Boot, Cloud & Microservices* Limache, Región de Valparaíso, Chile | GMT-4 - UTC-4 gonzalo.oviedo.dev@gmail.com | +56 9 6372 3603 linkedin.com/in/gol | English Intermediate B1

Professional Summary

Software Engineer with **+15 years of experience** building critical, scalable applications in the **Java (Spring Boot)** ecosystem. Strong expertise in **microservices architecture**, **REST API development**, **SQL databases (PostgreSQL, Oracle)**, and **Cloud infrastructure (GCP)**. Proven track record in Enterprise environments including **Finance (Citibank)**, **Global E-commerce (Perficient/Caterpillar)** and **EdTech (WebClass)**.

Full-cycle development experience including infrastructure automation via **Pulumi IaC on Google Cloud Platform**, containerization with **Docker**, and modern frontend frameworks (**Flutter, Vue.js, React**). Experienced working in multicultural, distributed teams.

Core Technical Skills

Backend Languages: Java (1.8 - 21), **SQL Frameworks:** Spring Boot, Spring Beans, Hibernate, Struts
Databases: PostgreSQL, Oracle PL/SQL, MySQL, MongoDB **Architecture:** Microservices, REST APIs, Event-driven

Cloud & Infrastructure Cloud: Google Cloud Platform (Pulumi IaC), AWS Lambda, Azure DevOps **Containers:** Docker **CI/CD:** Jenkins, GitLab, Gradle, Maven, Git

Frontend & Additional Flutter, Vue.js, Nuxt, React, JavaScript (ES6+) Elixir, Ash Framework, GraalVM, Agent AI with Pi.dev

Professional Experience

CTO & Co-founder | *Mobility Startup* 2024 – Present **Technologies:** Java 21 (Spring Boot), Google Cloud, Pulumi (IaC), Docker, GraalVM, Microservices

- Architected and developed a mobility platform using cloud-native stack with Java 21 and Spring Boot
- Implemented **microservices architecture** on **Google Cloud Platform** with automated IaC via Pulumi
- Designed and built RESTful APIs and event-driven services for real-time data processing
- Containerized applications with Docker and managed CI/CD pipelines
- Led technical team, making architectural decisions and code reviews

Java Associate Developer | *Perficient - Caterpillar* 2022 – 2023 **Technologies:** Java 21, Spring Boot, REST APIs, Agile

- Developed and maintained **global e-commerce platform** for Caterpillar using Java and Spring Boot
- Built microservices and REST APIs in a distributed, multicultural team environment (US, India, Latin America)
- Collaborated with product managers, QA, and peers to deliver high-quality software
- Applied best practices for software development using Agile methodologies

Java Specialist | *Citibank* 2021 – 2022 **Technologies:** Java, Oracle SQL, Spring Beans, Jenkins, Git, Gradle

- Delivered financial solutions for monthly requirements using Java and Spring framework
- Developed and maintained reports and data processing for internal clients
- Led database migration from Sybase to Oracle in multicultural team (US, Ukraine, India, Chile)
- Troubleshoot and resolved production issues under guidance of senior architects

CTO | *Seven IT SpA* 2017 – 2020 **Technologies:** Spring Boot (REST, MVC), PostgreSQL, Google Cloud, Docker, JavaScript

- Designed and developed Healthcare Management System for hospital control and clinical records
- Built RESTful APIs with Spring Boot connected to PostgreSQL database
- Managed cloud infrastructure on Google Cloud Platform
- Led team of 4 developers, mentoring junior team members

Java/Senior Developer | *WebClass, Creasys, Coopeuch* 2008 – 2017 **Technologies:** Java, Spring, Hibernate, PostgreSQL, Oracle, SQL Server, Jenkins

- Full-cycle development for banking, ed-tech and enterprise sectors
- Team leadership and collaboration in multicultural environments
- Electronic invoicing and banking migrations (AS/400 to Java)
- Educational platform development serving 1,800 schools

Education

Computer Science Engineering | Universidad del Bío Bío Thesis: Extreme Programming (XP) - Theory and Practice.
