Professional Summary

I am a **Senior Software Engineer** with over 15 years of experience in developing critical, scalable applications. My core expertise lies in the **Java (Spring Boot)** ecosystem, complemented by strong specialization in **SQL (Oracle and PostgreSQL)**.

I have contributed to high-demand sectors such as **Finance (Citibank)**, **EdTech (WebClass)** and **E-commerce (Perficient/Caterpillar)**. My profile is full-cycle: infrastructure as code (**IaC**) using **Pulumi on Google Cloud Platform**, and I have led the development of modern interfaces mostly with **Flutter**. I am passionate about building robust platforms, exploring emerging technologies like **Blockchain (ICP, Solidity)** and adopting high-performance technologies such as **Elixir and Ash Framework**. I enjoy working in collaborative teams seeking solutions that add real business value.

Technical Skills

Primary Skills

Languages: Java (1.8 - 21), SQL

Frameworks: Spring Boot

Databases: PostgreSQL, Oracle PL/SQL

Cloud/Infrastructure: Google Cloud (Pulumi IaC), Docker

AI: Agentic AI with Pi.dev

Secondary Skills

Languages: JavaScript (ES6+), Bash, Elixir

Frameworks: Vue.js, Nuxt, React, Struts, Ash Framework

Infrastructure/Cloud: Azure DevOps, AWS Lambda

Databases: MongoDB, MySQL

Blockchain: Solidity, Internet Computer

Recent Experience

CTO & Co-founder | *Mobility Startup* 2024 – Present

Technologies: Elixir, Ash Framework, Flutter, Java 21 (Spring Boot), GraalVM, Google Cloud, Pulumi, Agentic AI with Pi.dev

- Architected and developed a mobility platform powered by Agentic AI with Pi.dev, designing and implementing the agent lifecycle (skills, commands, workflow) as an execution harness, integrating cost-effective LLMs to optimize expenses without sacrificing performance.
- Built the complete technology stack and led the technical team.
- Implemented automated cloud infrastructure with Pulumi.

Java Associate Developer | *Perficient - Caterpillar* 2022 – 2023

Technologies: Java 21 (Spring Boot)

- Developed and maintained the global e-commerce system using Java and agile methodologies.
- Collaborated in multicultural teams across the USA, India, and Latin America.

Java Specialist | *Citibank* 2021 – 2022

Technologies: Java, Oracle SQL, Spring Beans, Jenkins, Jira, Confluence, Git, Eclipse, Gradle, Websphere

- Developed solutions for monthly requirements using an internal framework (Java Bean Spring).
- Created and maintained reports for internal clients.
- Led database migration from Sybase to Oracle in a multicultural team (USA, Ukraine, India, Chile).

CTO | *Seven IT SpA (Hospital Cruz del Norte, SQM)* 2017 – 2020

Technologies: Spring Boot (REST, MVC), PostgreSQL 9.6, Linux, Google Cloud (VM), Gitlab, jQuery, JavaScript, Bootstrap, Vuetify

- Owner, manager, and developer of a Healthcare Management System for hospital care control and records (medicine, nursing, kinesiology).
- Developed a payment management module and custom PDF reports for administration.
- Functional and technical leadership managing a team of 4 developers (frontend and backend).

Java/Senior Developer | *WebClass, Creasys, Coopeuch, Others* 2008 – 2017

Technologies: Java, AS/400, Struts, Hibernate, PostgreSQL, Oracle, SQL Server, Jenkins, Jira

- Full-cycle development: requirements analysis, design, development, QA for banking, ed-tech, and enterprise.
- Team leadership and collaboration in multicultural environments (Santander, Ripley, Coopeuch).
- Electronic invoicing, banking migrations (AS/400 to Java), incident management.
- Generated additional sales through new features on educational platforms (1,800 schools).

Education

Computer Science and Informatics Engineering | Universidad del Bío Bío

Thesis: Extreme Programming (XP) - Theory and practice.
