

Gonzalo Oviedo Lambert *FullStack Developer - Java - Spring Boot - REST API - SQL - GCP* Limache, Valparaíso Region, Chile | GMT-4 - UTC-4 goviedo.laboral@gmail.com | +56 9 6372 3603 linkedin.com/in/gol | English Intermediate B1

Professional Summary

I am a **Senior Software Engineer** with over 15 years of experience building critical, scalable applications. My core expertise lies in the **Java (Spring Boot)** ecosystem, complemented by strong specialization in **SQL (Oracle and PostgreSQL)** and **RESTful API** design for high-demand systems.

I work daily with **software agent harnesses** (Pi.dev, opencode), acting as an AI-assisted coder who applies judgment, architecture, and deep thinking to orchestrate agents in solving complex problems. This synergy between my technical discernment and automated AI workflows allows me to deliver robust backend solutions with greater speed and quality.

I have contributed to high-stakes sectors including **Finance (Citibank)**, **EdTech (WebClass)**, and **E-commerce (Perficient/Caterpillar)**. My profile is full-cycle: infrastructure as code (**IaC**) using **Pulumi on Google Cloud Platform**, and scalable API development with **Spring Boot** and **Java 21**. I am passionate about building robust platforms and adopting high-performance technologies.

Technical Skills

Primary Skills Languages: Java (1.8 - 21), **SQL Frameworks:** Spring Boot (REST, MVC), Spring Beans **Databases:** PostgreSQL, Oracle PL/SQL **Cloud/Infrastructure:** Google Cloud (Pulumi IaC), Docker **APIs & Backend:** REST API Design, Microservices, Gradle, Maven **AI Agentic:** Software agent harnesses (Pi.dev, opencode)

Secondary Skills Languages: JavaScript (ES6+), Bash, Elixir **Frameworks:** Vue.js, Nuxt, React, Struts, Ash Framework **Infrastructure/Cloud:** Azure DevOps, AWS Lambda **Databases:** MongoDB, MySQL **Blockchain:** Solidity, Internet Computer

Recent Experience

CTO & Co-founder | *Mobility Startup* 2024 – Present **Tech Stack:** Elixir, Ash Framework, Flutter, Java 21 (Spring Boot), GraalVM, Google Cloud, Pulumi, Agentic AI with Pi.dev

- Architected and developed a mobility platform powered by **Agentic AI with Pi.dev and opencode**, designing and implementing the full agent lifecycle (skills, commands, workflow) as an execution harness, integrating cost-efficient LLMs without sacrificing performance. Applied technical judgment and architectural thinking to orchestrate agents in building backend APIs and business logic.
- Built the complete technology stack and led the technical team.
- Implemented automated cloud infrastructure with Pulumi.

Java Associate Developer | *Perficient - Caterpillar* 2022 – 2023 **Tech Stack:** Java 21 (Spring Boot)

- Developed and maintained a global e-commerce system using Java and agile methodologies.
- Collaborated with multicultural teams across the US, India, and Latin America.

Java Specialist | *Citibank* 2021 – 2022 **Tech Stack:** Java, Oracle SQL, Spring Beans, Jenkins, Jira, Confluence, Git, Eclipse, Gradle, Websphere

- Developed solutions for monthly requirements using an internal framework (Java Bean Spring).
- Created and maintained reports for internal clients.
- Migrated database from Sybase to Oracle in a multicultural team (US, Ukraine, India, Chile).

CTO | *Seven IT SpA (Hospital Cruz del Norte, SQM)* 2017 – 2020 **Tech Stack:** Spring Boot (REST, MVC), PostgreSQL 9.6, Linux, Google Cloud (VM), Gitlab, jQuery, JavaScript, Bootstrap, Vuetify

- Owner, manager, and developer of a Healthcare Management System for hospital care control and records (medicine, nursing, kinesiology).

- Developed a payment management module and PDF administrative reports.
- Functional and technical leadership managing a team of 4 developers (frontend and backend).

Java/Senior Developer | *WebClass, Creasys, Coopeuch, Others* 2008 – 2017 **Tech Stack:** Java, AS/400, Struts, Hibernate, PostgreSQL, Oracle, SQL Server, Jenkins, Jira

- Full-cycle development: requirements analysis, design, development, QA for banking, ed-tech, and enterprise.
- Team leadership and collaboration in multicultural environments (Santander, Ripley, Coopeuch).
- Electronic invoicing, bank migrations (AS/400 to Java), incident management.
- Generated additional sales through new features in educational platforms (1,800 schools).

Education

Computer Engineering and Informatics | Universidad del Bío Bío Thesis: Extreme Programming (XP) - Theory and Practice.
