

Gonzalo Oviedo Lambert *Software Engineer — Java, Spring Boot, REST APIs & Microservices* Limache, Región de Valparaíso, Chile | GMT-4 - UTC-4 gonzalo.oviedo.dev@gmail.com | +56 9 6372 3603 linkedin.com/in/gol | English Intermediate B1

Professional Summary

Software Engineer with **+15 years of experience** building critical, scalable applications in the **Java (Spring Boot)** ecosystem. Strong expertise in **RESTful API development**, **microservices architecture**, **SQL databases (PostgreSQL, MySQL, Oracle)**, and **Cloud infrastructure (GCP)**. Proven track record delivering enterprise-grade solutions for **Finance (Citibank)**, **Global E-commerce (Perficient/Caterpillar)** and **EdTech (WebClass)**.

Full-cycle development experience including infrastructure automation with **Pulumi IaC on Google Cloud**, containerization with **Docker**, and CI/CD pipelines with **Jenkins** and **GitLab**. Experienced in multicultural, distributed teams.

Core Technical Skills

Backend Languages: Java (8 - 21), SQL **Frameworks:** Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate **Databases:** PostgreSQL, MySQL, Oracle PL/SQL, MongoDB **Architecture:** Microservices, REST APIs, Event-driven

Cloud & DevOps Cloud: Google Cloud Platform (Pulumi IaC), AWS Lambda, Azure DevOps **Containers:** Docker **CI/CD & Tools:** Jenkins, GitLab CI, Gradle, Maven, Git, GitHub, Bitbucket

Frontend & Additional Flutter, Vue.js, Nuxt, React, JavaScript (ES6+) Elixir, Ash Framework, GraalVM, Agentic AI with Pi.dev

Professional Experience

CTO & Co-founder | *Mobility Startup* 2024 – Present **Technologies:** Java 21 (Spring Boot), Google Cloud, Pulumi, Docker, Microservices

- Architected and developed a mobility platform using cloud-native stack with Java 21 and Spring Boot
- Implemented microservices architecture on Google Cloud Platform with IaC via Pulumi
- Designed, developed, tested, and deployed scalable RESTful APIs and event-driven services
- Containerized applications with Docker and managed CI/CD pipelines
- Wrote clean, maintainable code following best practices; conducted code reviews
- Optimized applications for performance, security, and scalability

Java Associate Developer | *Perficient - Caterpillar* 2022 – 2023 **Technologies:** Java 21, Spring Boot, REST APIs, Agile

- Developed and maintained global e-commerce platform using Java and Spring Boot
- Built microservices and REST APIs collaborating with cross-functional teams (Product, QA)
- Debugged and troubleshooted production issues to ensure application reliability
- Participated in code reviews and provided constructive feedback
- Collaborated in multicultural distributed teams (US, India, Latin America)

Java Specialist | *Citibank* 2021 – 2022 **Technologies:** Java, Oracle SQL, Spring Beans, Jenkins, Git, Gradle

- Delivered financial solutions using Java and Spring framework
- Developed and maintained database reports and data processing
- Led database migration from Sybase to Oracle in multicultural team

- Participated in requirement analysis and technical design

CTO | *Seven IT SpA* 2017 – 2020 **Technologies:** Spring Boot (REST, MVC), PostgreSQL, Google Cloud, Docker, JavaScript

- Designed and developed Healthcare Management System with Spring Boot, REST APIs, PostgreSQL
- Built scalable backend services and RESTful endpoints
- Managed cloud infrastructure on Google Cloud Platform
- Led team of 4 developers; conducted code reviews

Java/Senior Developer | *WebClass, Creasys, Coopeuch* 2008 – 2017 **Technologies:** Java, Spring, Hibernate, PostgreSQL, Oracle, SQL Server, Git

- Full-cycle development: analysis, design, development, testing for banking, ed-tech, enterprise
- Team leadership in multicultural environments
- Electronic invoicing and banking database migrations
- Maintained documentation for software design and development processes

Education

Computer Science Engineering | Universidad del Bío Bío Thesis: Extreme Programming (XP) - Theory and Practice.
