 - Inglés técnico — Años en equipos distribuidos en inglés (US, India, Ucrania)
-

Professional Summary

Backend engineer with 15+ years building Java/Spring Boot platforms for banking, healthcare, and high-traffic systems. Deep expertise in cloud architecture (AWS, GCP), REST APIs, microservices, and CI/CD pipelines. Currently own and operate a mobility platform live in production on Google Cloud since 2024. Comfortable making architectural decisions, mentoring teams, and implementing DevOps best practices.

Technical Skills

- **Backend:** Java (1.8 to 21), Spring Boot, microservices, REST APIs, JPA/Hibernate.
 - **Cloud & Infrastructure:** AWS (Lambda, EC2, RDS, VPC), Google Cloud Platform, Docker, containerization, Kubernetes basics, Pulumi (IaC).
 - **CI/CD & Quality:** Jenkins, GitLab, Git, Gradle, Maven, automated test suites, SOLID, Clean Code.
 - **Databases:** PostgreSQL, Oracle SQL, MySQL, SQL Server, MongoDB.
 - **Plus (secondary):** React, TypeScript, JavaScript, Python (scripting), Elixir (Phoenix).
-

Professional Experience

Tech Lead | *Mobility Startup* — *app.tellevoapp.cl* (2024 – Present)

Technologies: Java 21 (Spring Boot), GraalVM, Google Cloud, Pulumi IaC, Docker, AWS Lambda, CI/CD.

- Own the end-to-end architecture of a carpooling platform running in production with real users since 2024.
- Deployed and automated entire GCP infrastructure with Pulumi, migrating workloads to Cloud Run serverless containers.
- Designed and rolled out CI/CD pipelines with automated test suites as quality gates, enforcing SOLID and Clean Code principles.
- Lead the technical team and mentor developers in architecture decisions and code reviews.

Java Specialist | *Citibank* (2021 – 2022)

Technologies: Java, Spring, Oracle SQL, AWS, Jenkins, Gradle, WebSphere.

- Executed the migration of financial databases from Sybase to Oracle — over 15 million records with zero data loss — under strict banking regulation.
- Built REST APIs for internal reporting systems, meeting SLAs for critical clients.
- Coordinated technically in English within distributed teams (US, Ukraine, India, Chile).

Tech Lead | *Seven IT SpA* — *Hospital Cruz del Norte, SQM* (2017 – 2020)

Technologies: Spring Boot (REST, MVC), PostgreSQL, AWS & GCP (VMs), Linux, GitLab, CI/CD.

- Designed and deployed a Healthcare Management System (medicine, nursing, physiotherapy) used daily by clinical staff.
- Built transactional payment and billing APIs with automated reporting.
- Led a team of 4 developers through code reviews, architecture sessions, and deployment coordination.

Java Senior Developer | *WebClass, Creasys, Coopeuch and others (2008 – 2017)*

Technologies: Java, Spring, Hibernate, PostgreSQL, Oracle, AWS, Jenkins, Jira.

- Delivered full-cycle backend development — requirements, design, build, QA — for banking, ed-tech, and enterprise clients (Santander, Ripley, Coopeuch).
 - Led legacy migrations from AS/400 to Java and electronic invoicing integrations for financial institutions.
 - Shipped features that enabled additional sales on an education platform serving 1,800+ schools with 500k+ daily API requests.
-

Education

- **Computer Science & Informatics Engineering** — Universidad del Bío-Bío. Thesis: Extreme Programming (XP), theory and practice.
