Professional Summary

I am a **Senior Software Engineer** with over 15 years of experience in developing critical, scalable applications. My core expertise lies in the **Java (Spring Boot)** ecosystem, complemented by strong specialization in **SQL (Oracle and PostgreSQL)**.

I have contributed to high-demand sectors such as **Finance (Citibank)**, **EdTech (WebClass)** and **E-commerce (Perficient/Caterpillar)**. My profile is full-cycle: infrastructure as code (**IaC**) using **Pulumi on Google Cloud Platform**, and I have led the development of modern interfaces mostly with **Flutter**. I am passionate about building robust platforms, exploring emerging technologies like **Blockchain (ICP, Solidity)** and adopting high-performance technologies such as **Elixir and Ash Framework**. I enjoy working in collaborative teams seeking solutions that add real business value.

Technical Skills

Primary Skills

Languages: Java (1.8 - 21), SQL

Frameworks: Spring Boot

Databases: PostgreSQL, Oracle PL/SQL

Cloud/Infrastructure: Google Cloud (Pulumi IaC), Docker

AI: Agentic AI with Pi.dev, opencode harnesses

Secondary Skills

Languages: JavaScript (ES6+), Bash, Elixir

Frameworks: Vue.js, Nuxt, React, Struts, Ash Framework

Infrastructure/Cloud: Azure DevOps, AWS Lambda

Databases: MongoDB, MySQL

Blockchain: Solidity, Internet Computer

Recent Experience

Lead Software Engineer | *Mobility Startup* 2024 – Present

Technologies: Elixir, Ash Framework, Flutter, Java 21 (Spring Boot), GraalVM, Google Cloud, Pulumi, Agentic AI with Pi.dev, opencode

- Architected and developed a mobility platform powered by Agentic AI, orchestrating daily tasks via software agent harnesses (Pi.dev, opencode) to reduce operational costs by 400% and accelerate agent response times by 30% using cost-effective LLMs.
- Built the complete technology stack from scratch and led a technical team of 5 engineers to deliver the MVP in under 4 months, achieving a 99.9% system uptime.
- Implemented automated cloud infrastructure with Pulumi, reducing deployment time by 70% and cutting infrastructure provisioning from days to minutes.

Java Associate Developer | *Perficient - Caterpillar* 2022 – 2023

Technologies: Java 21 (Spring Boot)

- Developed and maintained the global e-commerce system processing over \$10M+ in daily transactions using Java and agile methodologies.
- Collaborated in distributed multicultural teams across 3 continents (USA, India, Latin America), improving sprint delivery predictability by 25% through optimized code reviews.

Java Specialist | *Citibank* 2021 – 2022

Technologies: Java, Oracle SQL, Spring Beans, Jenkins, Jira, Confluence, Git, Eclipse, Gradle, Websphere

- Delivered 100+ critical financial requirements using an internal Java Bean Spring framework, improving system processing speed by 20%.
- Automated the generation of 50+ monthly reports for internal clients, saving approximately 40 hours of manual work per month.
- Led a zero-downtime database migration of over 500GB of data from Sybase to Oracle, coordinating a multi-cultural team of 15 members across 4 countries.

Tech Lead | *Seven IT SpA (Hospital Cruz del Norte, SQM)* 2017 – 2020

Technologies: Spring Boot (REST, MVC), PostgreSQL 9.6, Linux, Google Cloud (VM), Gitlab, jQuery, JavaScript, Bootstrap, Vuetify

- Architected and developed a Healthcare Management System handling records for 10,000+ patients, resulting in a 30% increase in clinic operational efficiency.
- Provided functional and technical leadership to a team of 4 developers, increasing feature deployment frequency by 50% and reducing bug rates by 15%.

Senior Java Developer | *WebClass, Creasys, Coopeuch, Others* 2008 – 2017

Technologies: Java, AS/400, Struts, Hibernate, PostgreSQL, Oracle, SQL Server, Jenkins, Jira

- Executed full-cycle development for 20+ enterprise applications across the banking, ed-tech, and corporate sectors.
- Successfully migrated 100% of legacy AS/400 banking modules to a modern Java architecture, eliminating licensing costs and improving throughput by 40%.
- Generated a 15% increase in additional sales by delivering new features to an educational platform serving 1,800+ schools and over 500,000 active users.

Education

Computer Science and Informatics Engineering | Universidad del Bío Bío

Thesis: Extreme Programming (XP) - Theory and practice.
